

Service Now

Project Documentation format

1. Introduction

a) Project Title: Cafeteria Menu Display

b) Team ID: LTVIP2026TMIDS52382

Team Members: 04

Team Leader: Bathina Sivani

Team Member: Jitta Koushika Sai

Team Member: Indukuri Hithaishi

Team Member: Bujula Padmasai

2. Project Overview

Purpose:

The purpose of the Cafeteria Menu Display Portal is to automate and simplify cafeteria menu management using ServiceNow. It helps administrators create, update, and publish menus efficiently while allowing employees to access real-time menu information.

Features:

- Menu creation and management
- Publish menu using UI Action
- Service catalog request system
- Report generation
- Dashboard integration
- Real-time menu display
- Status tracking (Draft / Published)
- Testing and validation

3. Architecture

Frontend:

ServiceNow forms and portal interface used for user interaction.

• Backend:

ServiceNow business logic, UI actions, and workflows handle processing.

• Database:

ServiceNow tables store menu data (Cafeteria Menu table).

4. Setup Instructions

Prerequisites:

- ServiceNow instance access
- Basic knowledge of ServiceNow

Installation / Setup:

- Login to ServiceNow
- Open Studio / App Engine Studio
- Create application “Cafeteria Menu Display”
- Create table and fields
- Configure Service Catalog
- Create UI Action
- Create Report and Dashboard

5. Folder Structure

- Studio Application
- Tables (Cafeteria Menu)
- Service Catalog
- Report
- UI Actions
- Testing

6. Running the Application

- Open ServiceNow instance
- Navigate to Cafeteria Menu module

- Create and manage menus
- Use Service Catalog for requests
- View reports in dashboard

7. API Documentation

Not applicable (ServiceNow uses built-in platform features instead of external APIs)

8. Authentication

- ServiceNow role-based access control
- Admin can create/update/publish menus
- Users can view menus and submit requests

9. User Interface

Admin Interface:

- Create and update menus
- Publish menus

• User Interface:

- View menu
- Submit requests via Service Catalog

10. Testing

Service Catalog Testing:

- Submit menu request
- Verify request submission

UI Action Testing:

- Create new menu
- Click “Mark as Published”
- Verify status changes to Published

The screenshot shows the ServiceNow interface for a 'Cafeteria Menu' record. The header bar includes the ServiceNow logo, navigation tabs (All, Favorites, History, Admin), a search bar, and a record title 'Cafeteria Menu - Created 2026-02-17 08:52:28'. Below the header, the record details are displayed in a form. The 'Menu Items' field contains 'Noodles' and 'Magi'. The 'Menu Name' field is set to 'Chinese', and the 'Menu Date' is '2025-02-03'. The 'Status' field is a dropdown menu currently showing 'Published'. At the bottom of the form, there are 'Update' and 'Delete' buttons.

Menu Items	Noodles Magi		
Menu Name	Chinese	Menu Date	2025-02-03
Status	Published		

12. Known Issues

- Role-based access may restrict some features
- Dashboard visibility depends on permissions
- Minor delays in updating records

13. Future Enhancements

- Mobile application support
- Notification system for menu updates
- Feedback and rating system
- AI-based meal suggestions
- Integration with payment systems
